

Pablo Beltran

Full Stack Software Engineer

beltranflores.juan@gmail.com • github.com/Ilchampo • linkedin.com/in/pablobeltran1405 • https://pablobeltran.site

PROFILE

Full Stack Software Engineer with over 3 years of experience, specializing in fast-paced startup environments. Proven track record leading complex projects and implementing scalable systems that have contributed to company acquisitions using modern technologies like Node, React and Svelte. Adept at building both frontend and backend solutions with strong DevOps practices. Passionate about clean code, continuous learning, and developer experience.

SKILLS

- Languages:** TypeScript, Go, C#, Python
- Frontend:** HTML, CSS, SvelteKit, React, Next.js, Tailwind
- Backend:** Node.js, Express, NestJS, .NET, Gin, Flask, GraphQL
- Databases:** PostgreSQL, MySQL, MongoDB, Redis
- Cloud & DevOps:** Git, Docker, AWS, Azure, GCP, Vercel, Linux
- Data Analytics:** Power BI, DAX, Tableau

PROFESSIONAL EXPERIENCE

Full Stack Software Engineer, GoTrebol (YC W22) Sep 2024 – May 2025 | Remote (Colombia)

- Led automation efforts, reducing operational time by 13% via document process optimization service in Node.
- Refactored legacy code and migrated application from Svelte 4 to Svelte 5.
- Introduced SvelteKit best practices to standardize frontend development and provided Svelte 5 workshops to the team.

Technologies: Node.js, Typescript, SvelteKit, PostgreSQL, Docker, AWS

Full Stack Software Engineer, Quacquarelli Symonds (Former 1Mentor) Mar 2023 – Sep 2024 | Remote (United Kingdom)

- Built secure GCP-based encryption system for deployment variables, reducing rollout time by injecting them into the application.
- Integrated localized skill recommendations to personalize user experience along with the Machine Learning team.
- Delivered dynamic major customization tools for educational institutions such as report generation and specialized majors.

Technologies: Node.js, Typescript, NestJS, GCP, PostgreSQL, React, GraphQL

Full Stack Software Engineer, RocketRez (Former TourOpp) Jun 2022 – Mar 2023 | Remote (Canada)

- Unified SMS, Email, and RocketPass communication under a single messaging API.
- Led UI redesign of the Rocket Office Messaging Center for improved UX and accessibility.

Technologies: Node, Typescript, .NET, React, Azure, PostgreSQL

PROJECTS

Llegar A Casa — Public Transport Integrity Tool

SvelteKit, Puppeteer, Tailwind, Node.js, Vercel

- Developed a web scraper to verify the legality of public transport vehicles.
- Helped over 300 users access safe transport data before shutting down the app.

AstroText — Readability Chrome Extension

React, Vite, OpenAI API

- Built an open-source Chrome extension to correct and enhance English writing for non-native speakers.
- Features grammar correction, tone adjustment, and lexical improvement.

ACHIEVEMENTS

- 1st Place – UTEC Ventures Entrepreneur Contest (Talluelo: Online Course Platform)
- 4th Place – UDLA Engineer Contest (FastChange: Biometric Ticketing System)
- Top 20 – DevSu National Programming Competition (2019)

EDUCATION

Master's Degree in Business Intelligence & Data Analytics

University of the Americas, Ecuador

Expected Jun 2026

Bachelor's Degree in Software Engineering

University of the Americas, Ecuador

Mar 2019 – Jun 2023

CERTIFICATIONS

- Software Processes and Agile Practices — University of Alberta (2022)
- Managing an Agile Team — University of Virginia (2022)
